## The Spirit of Friendship.

This store looks upon its patrons not merely as customers but as friends. People purchase here because they have friendly feeling for this store. The cause which develops this friendly feeling, may differ, in fact, they are sure to differ. One's friendship for the store is the result of finding good values; another's is the result of efficient service and courteous treatment, and so on.

Naturally this friendly feeling on the part of our patrons is reciprocated on our part. And this spirit of mutual friendship is an impetus for greater service and an incentive to ever-increasing endeavor to make this store a place where every visitor will feel perfectly at home.

SURFACE AND UNDERGROUND MINE SURVEYING

### "ARIZONA PAT" DIRECTORS MEET

A directors' meeting of the Arizona Patagonia Silver Mining company, better known as the "Arizona Pat", was held in Nogales on last Saturday.

Robert E. Moore, a well known mining man from Jerome, was present, together with J. C. Callaghan, formerly state auditor; C. E. Beach, formerly south-western manager for the Union Oil company of California; and K. D. Washburn, a Los Angeles capitalist, formerly a resident of Jerome. James M. Layman, president of the "Arizona Pat", also attended the meeting.

The directors besides considering a mass of general business, made plans for the future development and production of the property.

Richard Kingdon, of Jerome, and formerly superintendent of the United Verde Extension property, was designated by the directors for one or more years as mine manager.

Messrs. Washburn and Moore resigned from the directorate of the company because of pressing personal business, and Messrs. John S. Eberman and R. D. Berger, prominent Pittsburgh, Penn., business men, were elected to fill the vacancies.

As soon as the necessary supplies for the mine can be secured, and foundations and excavations made for the new and additional machinery and equipment on hand has been set and installed, active operations will begin toward the development of the mammoth ore bodies.

Mike Hogan and his force of men will continue development work at the mines as heretofore—Patagonian.

### COTTON PICKERS NEEDED.

Both the employment service of the United States Department of Labor and P. R. Milne, Arizona immigration commissioner, have directed inquiries to the Warren district commercial club requesting information with regard to the labor that will be available for the coming cotton picking season in the Salt River and Yuma valleys. Picking will start some time in August.

The Arizona immigration commissioner writes: "It is my hope and intention, if possible, to secure labor in Arizona this year to pick the cotton crop of the Salt River and Yuma valleys. Crop estimates of the U. S. department of agriculture indicate that the yield will be between 35,000 and 40,000 bales. The labor of 10,000 people will be needed. From all the reliable information I am able to gather, 5000 will be available here (at Phoenix) for the purpose, which means that either the other 5000 must be secured in this state or that number of Mexicans imported. The latter contingency I desire to avoid."—Bisbee Review.

### REWARD FOR AUTO THIEVES.

Phoenix.—Another boulder has rolled into the stony path of the thief by the Automobile Club of Arizona in its decision to offer a standing reward of \$25 for the recovery of any stolen car belonging to a member of the club. An additional \$25 will be given in all cases where conviction is had. Notice to this effect has been sent to every peace officer in the state by S. J. Ross, president and general manager of the club, and the adoption of this definite policy by the club is expected to materially lessen the number of missing cars each month.

Pedestrians on Tenth street today were attracted by the work going on at the "home ranch" of Col. A. B. Packard, where "Jose" was cutting the alfalfa patch. This is the third cutting for the season and the colonel is hopeful that he will have enough hay laid away before the growing season is over to make at least a couple of nests for his hens this winter.—Douglas International.

### MUST PAY IMPORT TAX

Douglas, July 2.—All cattle shipped into Mexico for grazing purposes more than six months ago are subject to import tax when they re enter this country. C. A. Housel, deputy collector of customs in charge of this port, was instructed in a letter from the treasury department. This definitely determines the status of cattle which have been driven across more than 120 days, a question which Housel was unable to decide until the receipt of the letter.

When the dry summer and subsequent dry winter caused the ranges in southern Arizona to dry up, many cattlemen shipped their herds to Sonora where there was plenty of food. With the approach of the summer rainy season many are planning to bring them back and the question as to whether they would be subject to the new emergency tariff has frequently been asked customs officials. Cattle which were sent into Mexico less than six months ago will re enter this port duty free, except the calves, which are subject to the regular import duty.

### FARMERS ARE BUSY

Farmers of Salt River valley are busy now cutting grain, tending cotton and making hay. Probably half the grain has already been cut. The combined harvester is used generally. With this machine, run by a tractor, three men cut thresh and sack about 20 acres of grain a day. It is a great saving over the self binder, followed by the threshing.

Farmers are doing most of their own work this season in cultivating cotton, some men tending 40 acres alone. Last year the cotton was raised by clerks, speculators and side walk farmers, who hired Mexicans to do the work. The result will be that this year's cotton crop will be grown at minimum cost without being financed very much by the banks.—Phoenix Messenger.

### NOTICE TO CONTRACTORS.

Notice is hereby given that sealed bids will be received by the Highway Commission, until 3 o'clock p. m., June 9th, 1921, at the office of the Board of Supervisors, Nogales, Arizona, for the construction of the Nogales-Fairbank Highway, Federal Aid Project No. 50.

The work consists of approximately 45,000 cubic yards of excavation, 12,000 cubic yards of borrow, 22,000 cubic yards of concrete and other incidental items.

Proposals shall be addressed to Santa Cruz County Highway Commission, Nogales, Arizona, and plainly marked on the outside of the envelope, "State Highway Contract, Nogales-Fairbank Highway."

Plans and specifications may be seen at the office of the State Engineer, Phoenix, Arizona, or at the office of the Santa Cruz County Highway Engineer, Nogales, Arizona.

Copies of the plans and specifications may be obtained upon payment of five (\$5.00) dollars to Thos. Maddock, state engineer.

An unendorsed, certified or cashier's check for five per cent of the total amount of the bid, payable to the State Treasurer of Arizona, will be required with all proposals.

Satisfactory bonds will be required of the contractor to whom the award is made.

The Santa Cruz County Highway Commission reserves the right to reject any and all bids. All proposals shall be made on blanks furnished for that purpose.

SANTA CRUZ COUNTY HIGHWAY COMMISSION.

By GEO. H. FIEDLER, Chairman.  
Nogales, Arizona, June 23rd, 1921. 6-25-3t.

Blaisdell.—Several 5 ton trailers to be added to construction equipment of Blaisdell-Yuma road.

### ARIZONA WEEKLY INDUSTRIAL REVIEW.

(July 4, 1921.)

Yuma.—Many companies organizing to develop mineral deposits.

Holbrook.—Several new oil companies to enter local field.

Casa Grande.—Hydro electric power project at Post being planned.

Oatman Amalgamated mine close to install large compressor.

Phoenix.—Applications to lease 10,000,800 acres land filed in May.

Benson.—Work started on Charleston dam to irrigate 47,000 acres.

Flagstaff.—Work on boulevard to San Francisco Peaks progressing.

Florence.—Plans under way on Florence Superior highway.

Nogales.—Drilling for water in Wetstone Mountain strikes oil.

Mayer.—Old Cumberland gold mine to be reopened.

Kingman.—C. D. C. mine shipping \$13,000 concentrates monthly.

Warren.—Ore strike reported on 600 level or Shuttuck mine.

Kingman.—Big gold fissure cut on Katherine extension.

Mayer.—Old Trinity mine on Turkey creek to operate.

Nogales placed 200,000 local telephone calls during past month.

Chandler calls for bids on eight blocks of pavement.

Mayer.—Old Cumberland mine on Pine Flat to be developed.

Tucson has bill in Congress for \$500,000 postoffice.

Kingman.—Bonanza ore strike in Katherine mine causing stampede.

Chandler.—To employ 400 men on paving program.

Mesa.—South Verde Consolidated Copper Co. to use 3 shifts at mine.

Globe.—Superior-Boston mine shows high grade ore between 400 and 600 levels.

Somerton.—New process to be used on tailing of Tumco mine.

Phoenix.—California appropriates \$350,000 for road El Centro and Yuma road.

Sheldon.—5 stamp mill to be installed in Blue John mine.

Yuma.—Delta Co. signs up all oil leases, drilling resumed.

Globe.—Richmond Basin mining activities being revived, Gila Monster mill resumes operations.

Yuma.—County recorder announces oil leases increasing daily.

Los Angeles syndicate preparing to drill in South Holbrook field.

Courtland.—New machinery being installed at Sam Roberts claims.

Don Luis.—20 feet of high grade sulphide ore cut in Bora mine.

Tombstone.—Capital to develop Gold Camp group in Dragoon mountains.

Miami.—Ore samples from Pinto Creek assay \$300 to \$600 ton.

Kingman.—Ore strike \$100 to ton in Detroit mine.

Seligman.—Old Bagdad Company planning railroad to Hillside.

Oatman.—Unit Oatman strike pay ore on 600 foot level.

Santa Cruz.—Abe Lincoln mine amply financed, to start work.

Tucson.—English syndicate starting work at Cababi mine.

Mesa.—Wireless station being installed on Mills ranch.

Tucson.—Construction of \$40,000 childrens home to be completed.

Pearce.—Machinery to be installed and Commonwealth Extension lease thoroughly developed.

Patagonia.—Local merchants receive carload of mining machinery.

Ajo.—New Cornelia Copper Co. report satisfactory progress in experimenting with manufacture of copper utensils.

Pearce.—Silver lead ore strike uncovered on Bignon property.

Phoenix.—Approximately 10,000 people to be used to handle Salt River and Yuma valleys cotton crop.

Phoenix.—141 miles of concrete road under construction in county and 309 additional miles planned.

### NO SMOKING IN FIRE AREA

Albuquerque, N. M. July, 4 1921.—Smoking, during periods of fire danger, on National Forest land within the cyclone-swept area of the Olympic Peninsula, Wash., has been prohibited on and after July 1, by Secretary of Agriculture Wallace in amendment to the rules and regulations for the use and protection of the National Forests. Exception to the smoking rules is made of improved camping grounds designated by the Supervisor of the Olympic National Forest, and improved places of human habitation.

The area covered by the no smoking order amounts to some 540,000 acres, and includes all of the Olympic National Forest, west of a line extending from the east end of Lake Crescent, southward a distance of approximately 45 miles to the east end of Lake Quinault. The period of fire danger during which no smoking will be permitted is to be determined and publicly announced by the District Forester at Portland, Oregon.

The fire trap created by the cyclone of January 29, which swept the forests of the Olympic Peninsula in a 150 mile wind, is the worst known in the history of the country. Over 64 billion feet of timber, on a strip 90 miles long and from 20 to 30 miles wide, was blown down by the storm and now lies in a tangled mass. The greatest damage was done on State and private lands; only about one billion feet of National Forest timber being windthrown. Should fire ever gain headway in this devastated area foresters say the most stupendous conflagration in the annals of the nation would result.

Realizing the menace of fire in this great blowdown area, the State and Federal Governments are cooperating in protection measures to insure its safety, and have each appropriated a fund of \$100,000 for fire detection and suppression. Roads, trails and telephone lines have been constructed through the blowdown, and special fire fighting motor trucks, equipped with several thousand feet of hose and a portable pump engine, located at central points for emergency use. Guards will be stationed on all main lines of travel throughout the region, to see that no one enters except under special permit. Aerial fire patrol will also be maintained from Camp Lewis, Wash., during the danger season, through cooperation of the Air Service, U. S. Army, with the Forest Service.

### PHOENIX DATE COMPANY

Phoenix.—The Phoenix Date company was yesterday authorized to sell 35,000 shares of its treasury stock at \$1 a share and to issue 2000 shares to Mrs. Robert Metzler, for the transfer of property and an option on 200 date palm trees at \$100 a tree. The company incorporated April 28, with an authorized capitalization of 1,000,000.

It is claimed that to develop the enterprise, which is to produce dates for commercial purposes, \$10,000 will be required for land, \$25,000 for nursery stock and \$5000 for labor for the next five years.

Prominent local men are interested in the company, of which A. Henderson Stockton is president, and James H. Ward secretary. Robert Metzler is in charge of the management.

### ELKS HAVE BIG TIME

Local Elks who attended the big doings in Nogales Saturday and Sunday, where Elks from all over Arizona gathered to celebrate the first annual birthday of the Nogales lodge, report that hundreds of the antlered herd from all over Arizona, were royally entertained both on the Arizona and Nogales sides of the line. A large number of novices were "shown the ropes" during the big celebration and the local and Bisbee and Douglas Elks who journeyed down to the Key City did not regret their trip.—Tombstone Prospector.
